ASSEMBLYWOMAN JOAN CHRISTENSEN  
Chair

December 2007

Dear Colleagues:

Once again I am proud to present to you the Catalog of Workforce Preparation Programs issued by the Assembly's Legislative Commission on Skills Development and Career Education. This annual publication lists and explains over \$1 billion in federal and state funds dedicated to supporting New York's businesses and workforce in their efforts to compete in an increasingly challenging world market. Funding for high quality and relevant training programs has proven time and again to be a wise economic investment. These programs not only strengthen various sectors of the workforce, but they also enrich the State's economic competitiveness, thereby attracting promising new businesses and talented workers.

This Catalog aims to help individuals who find they are in need of upgrading their skills in order to keep pace with the rapidly changing work climate. It also lists career and technical education programs which are essential in grooming the emerging workforce. Our young adults need the strong fundamentals of technology and academics in order to be prepared for the continued educational needs they will encounter as they progress in their various chosen careers. The catalog also helps connect small business owners with skilled workers.

It is my hope that we will be able to maximize shrinking federal and state dollars for workforce development and economic development even more than we have in the past. I extend to you all an invitation to remain engaged in workforce development. Please feel free to contact the Commission at (518) 455-4865 if you have any questions and/or concerns needing our attention in the field.

I am sure you will find the Catalog as useful and informative as in years past. You may also access its information on the Assembly website at [www.assembly.state.ny.us](http://www.assembly.state.ny.us).

Sincerely,

Joan Christensen  
Chair

\* Academic outcome is the number of enrollees reaching 5<sup>th</sup> grade and 8<sup>th</sup> grade reading and math levels in English and Spanish; Oral English Proficiency (ESL level); and GED (English and Spanish) for 1999-2001. In 2002 and thereon academic outcome for enrollee's grade levels was increased to 6<sup>th</sup> and 9<sup>th</sup> grades for reading and math in English and Spanish, thus resulting in lower numbers of inmates achieving academic benchmarks. GED 2002 test was a new test and it was administered to fewer inmates resulting in lower outcome data. As of January 1, 2005, the GED exam was made mandatory. Vocational outcome is the number of enrollees demonstrating entry level job skills (tied to "Dictionary of Occupational Titles").

<b>PROGRAM</b>
<b>CUNY COLLABORATIVE PROGRAMS</b>

<b>PROGRAM INFORMATION</b>	
<b>POPULATION SERVED:</b>	In-School youth
<b>SERVICES PROVIDED:</b>	High school and college instruction and faculty development activities

\* Includes various Federal Employment Service funding sources.

## Division of Employment Services/Job Services (Cont'd.)

<sup>1</sup> Total job seekers that received a staff assisted service. Note that effective July 1, 2002, the federal reporting definitions for the program were modified. As of 07/01/02, in NYS, a job seeker is not considered enrolled in the Employment Service Program until they have received a staff assisted service. For PY 2003, PY 2004 and PY 2005, participant and outcome data are from the Federal 9002 Report for periods ending 6/30/04, 6/30/05 and 6/30/06, respectively.

<sup>2</sup> Entered Employment Rate is a new outcome measure implemented beginning with job seekers registered as of 07.01.02. The Entered Employment Rate is defined: The number of registered job seekers who, in Quarter 1 or Quarter 2 following the registration quarter, earned wages from a new employer divided by the total number of registered job seekers minus the number of job seekers whose only wages earned in Quarter 1 or Quarter 2 following the registration were exclusively with the same employer from which wages were earned in the quarter prior to the registration quarter.

<sup>3</sup> Employment Retention Rate is a new outcome measure implemented with job seekers registered as of 7/1/02, but not initially reported until the report period ending 3/31/04. The definition is: the number of registered job seekers who retain employment for two quarters after entering employment with a new employer in the first or second quarter following the registration quarter, divided by the total number of registered job seekers who entered employment with a new employer in the first or second quarter following the registration quarter.

<sup>4</sup> JOBS funding transferred to OTDA in 2005.

<sup>5</sup> Entered Employment Rate – of those not employed at the date of participation, the number of participants who are employed in the first quarter after the exit quarter.

<sup>6</sup> Employment Retention Rate – of those employed in the first quarter after the exit quarter, the number of participants who are employed in both the second and third quarters after the exit quarter, divided by the number of participants who exit during the quarter.

<b>PROGRAM</b>
<b>EDUCATIONAL OPPORTUNITY CENTERS (EOC)</b>

<b>PROGRAM INFORMATION</b>	
<b>POPULATION SERVED:</b>	Adults and Out-of-School Youth
<b>SERVICES PROVIDED:</b>	GED, College Preparation, Basic Education, English as a Second Language, Pre-Vocational and Vocational Skills Training, On-the-Job Training, Employer Specific Services, Internships, Job Search and Job Readiness Training, Counseling and Case Management, Employability Skills and Life Skills Instruction
