BLANKENBUSH

State Assemblyman

Investing In Their Future.

New York City politicians have cut millions from upstate schools. **Our children** deserve the funding necessary to help them **succeed**. Last year, Assemblyman Ken Blankenbush fought to restore \$600 million. This year, it is only fair that we secure the rest.

Securing these funds will:

- **Help** schools retain talented teachers
- **Equip** our classrooms with needed resources
- **Protect** art, music and athletic programs
- **Preserve** after-school programs
- **Control** our school taxes
