BRIAN KOLB'S
TOP PRIORITY:
Get NYers
Back to Work.

FOR ASSEMBLY MINORITY LEADER KOLB, LESS IS MORE!

- LOWER TAXES
- FEWER REGULATIONS
- MORE JOBS

Lower Taxes: Taxes in NY are simply too high to foster real job growth, forcing businesses and families to relocate to other states for better opportunities. Assembly Minority Leader Kolb’s “Back in Business Plan” would **slash taxes on middle-class families, immediately eliminate the energy tax, and cut business taxes.**

Fewer Regulations: NY’s maze of taxes, fees, rules, and regulations cuts into businesses’ bottom lines and stifles job creation. Leader Kolb’s “**Back in Business Plan**” cuts through the red tape by **reforming workers’ compensation to lower costs** for businesses, **repealing the costly state-imposed Wage Theft Prevention Act, and removing the unemployment tax on businesses.**

More Jobs: Creating an economic climate that allows businesses to succeed, gets people back to work, and generates quality jobs. Providing training & education for NY’s workforce prepares NYers for careers in emerging industries. His “Back in Business Plan” expands training and career opportunities and makes NY a more affordable place for our families and businesses.

Brian Kolb’s TOP PRIORITY: GET NYers BACK TO WORK

ASSEMBLY MINORITY LEADER BRIAN KOLB knows too many upstate families are unemployed and underemployed—leaving countless friends and neighbors still without work and struggling to get back on track. It is time to get Albany to work for *us*.

It is time for Leader Kolb’s “Back in Business Plan:”

- Provides targeted tax credits for local businesses to create long-term, local jobs.
- Contains numerous incentives to help unemployed and underemployed New Yorkers receive the training they need to succeed in today’s economy.
- Offers technical, informational, and logistical support to existing businesses through a “Grow-NY” Economic Gardening Program.
