FREE KIDNEY SCREENING FAQ'S:

Who should be screened?

You should attend a screening if you are 18 years or older and have one of the following risk factors:

- Diabetes
- High Blood Pressure
- Family history of Diabetes/ High Blood Pressure/ Kidney Disease

What will happen at a kidney screening program?

1. Complete paperwork on your health/family members' health history.
2. Blood Pressure and Body Mass Index tests.
3. Urine tests for signs of protein or blood (early indicators of kidney disease).
4. Finger stick for Glucose Testing (fasting or non-fasting).
5. Each participant will speak with a medical professional at the completion of testing.
6. Check out:
Each participant is given educational materials to take home. Preliminary information includes blood pressure and glucose numbers, and urine test results, given by medical professionals on site.
