When a child goes missing, every minute is precious. Law enforcement needs accurate information quickly. The Operation Safe Child program provides parents with an identification card for their children containing pertinent physical information to give law enforcement officials a head start on a missing child.

Information on each card includes:

- child's name
- birthdate
- age
- gender
- hair and eye color
- height and weight
- fingerprints
- high-resolution digital photo

These cards will be produced on-site and available in minutes
