# GIVING LONG ISLAND ITS VOICE BACK

"For too long, Long Islanders have been burdened by Albany's unsustainable climate mandates that drive up costs for working families.<sup>6,7</sup> As your voice in Albany, I'm fighting to put more money back in your pocket and return power to our local communities where it belongs."

## GIVING NEW YORKERS A SAY

I voted against prohibiting natural gas and other fossil fuels in most new buildings by 2026<sup>1</sup>.

## PUTTING AN END TO UNNECESSARY AND WASTEFUL SPENDING

I support requiring a full cost-benefit analysis of our state's renewable energy targets and greenhouse gas emission limits under the Climate Leadership and Community Protection Act (CLCPA)<sup>2</sup>.

## GIVING THE POWER BACK TO LOCALITIES

I support increasing transparency and oversight and giving municipalities more control over whether major renewable energy plants can be built in their jurisdiction<sup>3</sup> and support authorizing municipalities to opt out of costly, burdensome or impractical electrification mandates and others imposed under the CLCPA<sup>4</sup>.

## INCREASING TRANSPARENCY FOR UTILITY BILLS

I sponsored the Ratepayer Disclosure and Transparency Act to ensure the state shows people exactly how much they're paying on their utility bills for climate and energy programs<sup>5</sup>.
