#### State and Local Government Financial Wellness Program

In an effort to improve the financial wellness of the state and local public sector workforce, a new national initiative will competitively select and provide grants to state and local governments to establish or improve upon their financial wellness programs. This initiative is being administered via a collaboration of the Center for State & Local Government Excellence (SLGE), The International Public Management Association for Human Resources (IPMA-HR) and the National Association of State Treasurers Foundation (NASTF), with the support of the Wells Fargo Foundation. Local government and/or state governmental entities are invited to submit a proposal to receive a one-time grant to establish a financial wellness program for their employees. These funds can be used to expand programming already offered, establish new programs and initiatives, work with trusted thirdparty vendors to reach the public sector workforce or reach a wider audience through other quality programming.
