## NYS Office of Mental Health (OMH), Aging in Place Pilot Program Funding

This funding is available to develop five statewide pilot programs for adults who are aging and are currently, or could be, with enhanced support, residing in the community residence/single room occupancy (CR-SRO) level of care. Each of the five pilot programs will be developed within an existing CR-SRO program already operated by the applicant. The expectation is for an agency to set aside 20-25 existing units within the CR-SRO programs to support long-term care services for older adults and medically complex individuals. Agencies with multiple CR-SROs within 30 minutes travel time of each other may propose utilizing these enhanced services across multiple programs.

### U.S. National Science Foundation (NSF), Scholarships in Science, Technology, Engineering and Mathematics (S-STEM)

The S-STEM program seeks to increase the number of academically promising low-income students who graduate with an S-STEM eligible degree and contribute to the American innovation economy with their STEM knowledge. Recognizing that financial aid alone cannot increase retention and graduation in STEM, the program provides awards to institutions of higher education (IHEs) not only to fund scholarships, but also to adapt, implement and study evidence-based curricular and co-curricular activities that have been shown to be effective in supporting recruitment, retention, transfer (if appropriate), student success, academic/career pathways and graduation in STEM.

### Glenn Foundation for Medical Research (GFMR), Postdoctoral Fellowships in Aging Research

These fellowships encourage and further the careers of postdoctoral fellows who are conducting research in the basic biology of aging, as well as translating advances in basic research from the laboratory to the clinic. The award is intended to provide significant research and training support to permit these postdoctoral fellows to become established in the field of aging.

- **Letter of Intent Deadline:** January 27, 2026
- **Eligibility Criteria:**
  - ◆ the applicant must be a postdoctoral fellow (MD and/or PhD degree or equivalent) by the deadline date of the LOI submission, January 27, 2026
  - ◆ the proposed research must be conducted at a qualified not-for-profit setting in the United States
  - ◆ individuals who are employees in the NIH Intramural program are not eligible
  - ◆ postdoctoral fellows in laboratories that receive support as part of a Paul F. Glenn Center for Biology of Aging Research are not eligible to apply
  - ◆ applicants who have received more than five years of postdoctoral training at the time of the start of the award must provide a justification for the additional training period
  - ◆ former GFMR postdoctoral fellowship awardees are not eligible to apply, but may be eligible to apply for GFMR postdoctoral fellowship Continuation Awards
  - ◆ fellows may not hold any concurrent funding for the same research project
- **Award Amounts:** \$80,000
- **Number of Fellowships Awarded:** Up to 12

## Organization for Autism Research (OAR), Applied Research Grants

These grants will fund studies that expand the body of knowledge related to autism intervention and treatment; produce practical and clearly objective results; have the potential to positively affect public policy and provide outcomes that offer to enhance quality of life for people with autism and their families. While applicants are always free to submit on any relevant area of research or intervention, this year, OAR will prioritize funding for early career investigators and projects that promote diversity, equity and inclusion. Generally, OAR places special emphasis on research addressing the following areas:

- ◆ belonging and interpersonal skills
  - ◆ community-based assessment and intervention
  - ◆ community-engaged research
  - ◆ communication and language
  - ◆ community living and supports
  - ◆ gender, reproductive and sexual health
  - ◆ improving access to and effectiveness of existing systems and services
  - ◆ intersectionality, equity and diversity
  - ◆ mid-life and older adults
  - ◆ physical health and mental health
- **Letter of Intent Deadline:** March 16, 2026, 11:59 PM
  - **Eligibility:** At least one member of the research team must hold a Ph.D., M.D., or equivalent degree and maintain a faculty position or equivalent at a college, university, medical school or other research facility. International researchers are eligible to apply
  - **Award Amounts:** \$50,000

## Milbank Foundation, Empowering People with Disabilities Funding

The foundation's current priorities are:

- ◆ consumer-focused, community-based initiatives that empower people with disabilities and foster independence and self-sufficiency
  - ◆ rehabilitation and re-integration of veterans, especially veterans with disabilities
  - ◆ helping seniors to age in the place of their choice through non-institutional, community-based health and social service
  - ◆ market-oriented, patient-centered health care reforms across the country
  - ◆ programs that address mental health issues and aim to prevent substance abuse and suicide, especially among young people
- **Deadline:** Rolling

- **Eligible Applicants Must:** be located in the United States and tax-exempt under the U.S. Internal Revenue Code
- **Award Amounts:** Vary

## **Society of Family Planning, Bridging Investments in Abortion & Contraception Research Grants**

This funding opportunity will support proposals focused on completing or partially completing a terminated NIH grant related to abortion and/or contraception in the U.S. Proposals must clearly articulate how the proposed work aligns with the society's mission, provide a detailed plan that outlines the activities that will be completed with the requested funds and include an appropriate and justified budget and timeline for the proposed work.

- **Deadline:** Rolling
- **Eligibility:** Grants will be made to organizations on behalf of a named principal investigator (PI). Grants are limited, without exception, to tax-exempt organizations and to the named PI of the NIH grant. Applicants do not need to be members of the society. Funding is limited to grants focused on abortion and/or contraception in the US that were terminated by the NIH after January 20, 2025. NIH research grants (eg, R series) and research training and career development grants (eg, K series) are eligible for funding. Terminated grants from other federally funded agencies will be considered on a case-by-case basis; those that have not been peer-reviewed will not be considered. If you are engaged with litigation around a grant positioned for submission to the funding opportunity, please consult your legal counsel about the relationship between potentially receiving these funds and litigation efforts
