State, county and local beaches face challenges in budgeting to maintain their facilities, addressing water quality concerns, and keeping adequate staffing for public health and safety. This roundtable presents an opportunity for comparing information on issues faced by the beaches in Western New York, such as the threat of beach closure, and to share expertise in addressing these concerns including possibilities for cooperation and coordination.

Persons invited to participate in the roundtable should complete and return the enclosed reply form as soon as possible. It is important that the reply form be fully completed and returned so that persons may be notified in the event of emergency postponement or cancellation.
